

## **HAMBURG SWIM CENTER-**

**A 6000 sq. ft. pool is the primary feature at this site, and is bordered by an octagon shaped wading pool, with spray features, as well as a "changing house". The pool operates on a self-sustaining membership basis, and is open to people inside or out of the Village of Hamburg from the first week in June until Labor Day. The pool is heated; and has a small picnic area inside the Center Grounds. Across the parking lot (approx. 300') from the front of the Swim Center are 3 tennis Courts, which are also well used when weather permits.**

**Looking across wadding pool to the big pool.**

Looking from shallow end towards the deep end.

**Wading pool, showing one of the water features.**
