

## **MEMORIAL PARK-**

Is one of the Villages most eye-catching parks, located along a major access road. This 2.3-acre park's main feature is a large open bad-shell sitting on a raised concrete platform. This site hosts the summer evening concerts, art festivals, and other performances. Concerts are held from the end of June through August every Wednesday. See the main web page for specific dates.

A Memorial Pathway was recently established, at this site, where residents can purchase engraved pavers, to be installed in the pathway, as a way to remember loved ones.
