### **Review of Iris Hill Consulting Street Tree Inventory Proposal**

Richard Stedman (consultant) attended meeting to answer any questions

- Estimated 2-3 week fieldwork
- Estimated entire process to take 2-3 months (completed by late spring)
- Prefer to do inventory when trees are bare
- Inventory covers public R.O.W. trees (but no parks)
- He will record issues (maintenance, health, sidewalks, wires)
- To aid his work, he would require:
  - Village boundary map - the area that must be covered
  - Village Tree Code – to be able to assess available planting sites
  - Past inventories of Village's street trees (Excel file inventory & Ed Drabek's)

### **American Greetings Card**

- Changed their policy and is now recycling all their unsellable stock – YEAH!

### **Spring Tree Planting**

- It will be dependent upon the budget – a spring tree planting may or may not occur

*Next regularly scheduled meeting is February 12, 2013.*

Respectfully submitted,

Andrew Schrauth
