

# Is saving on energy really that easy?

# YES

**YES!** Our lineup of energy efficiency programs makes it easy for you to save money. And the best part is, with so many ways to save, you can be sure there's an opportunity right for you – whether you want to save at home or at your business. **Say YES to your energy savings!**

## Residential Programs

### Free Energy Saver Products

A free energy-efficient showerhead and faucet aerator are available to residential customers who heat their water with either NYSEG/RG&E natural gas or NYSEG/RG&E electricity, and who have not already received an Energy-Saving Products Kit from NYSEG, RG&E, NYSERDA or any other energy efficiency or energy assistance program. Go to [nyseg-rge.savingkit.com](http://nyseg-rge.savingkit.com), or call **1.877.560.6076** to order a kit.

### High-Efficiency Natural Gas Equipment Rebates

Available to residential natural gas customers for installing specific energy efficient equipment including:

- High efficiency natural gas furnaces
- Water and steam boilers
- ENERGY STAR® tank type and tankless water heaters
- Indirect water heaters
- Programmable thermostats

Call the companies' energy efficiency hotline at **1.800.995.9525** to learn more about this program.

### Home Refrigerator and Freezer Recycling

Available to residential electricity customers and includes free removal and recycling of a working refrigerator or freezer. Participants receive a \$50 rebate check and annual electricity savings of up to \$150. Units must be owned by the resident and a minimum of 10 cubic feet in size, using inside measurements. Call **1.877.691.0021** to schedule a pickup.

## Residential and Nonresidential Program

### Multi-Family

Provides equipment replacement and rebates designed to reduce electricity use in apartment and condominium complexes including:

- Free installation of screw-in LED and compact fluorescent light bulbs (CFLs) in common areas
- Incentives of 70% of the cost of hardwired LED, fluorescent and exit sign lighting upgrades in common areas
- Free installation of CFLs in up to six fixtures in dwelling units
- Free installation of smart power strips in dwelling units
- Free installation of energy-efficient faucet aerators and showerheads, and water heater pipe wrap in apartments and condominiums where water is heated by electricity
- Incentives of 30% of the cost of fluorescent fixture upgrades in dwelling units

Eligible buildings must have between 5 and 50 units. Property owners and agents can call **1.800.444.5668** to determine if their buildings are eligible for a free assessment.

**RG&E**

Energy Efficiency Programs

## Nonresidential Programs

### Small Business Direct Install

Offers nonresidential electricity customers with demand of less than an average of 110 kilowatts (kw) per month a free energy assessment and incentives toward equipment upgrades including:

- Replacing fluorescent fixtures with high efficiency lamps and ballasts
- Changing incandescent bulbs to compact fluorescent light bulbs (CFLs) or light-emitting diodes (LEDs)
- Upgrading exit signs to LED signs
- Installing occupancy sensors or dimmer switches
- LED canopy lighting
- Commercial refrigeration upgrades
- LED parking lot lights to replace both pole-top and wall-mounted metal halide lighting
- HID fixture replacements

NYSEG or RG&E pays up to 70% of the total cost of the installed measures. Call **1.877.359.9814** to see if your business qualifies for this program.

### Block Bidding

Similar to an auction, bidders are offered the opportunity to submit proposed energy savings and a bid price to achieve those savings. If the bid is accepted, NYSEG or RG&E will pay the customer if they achieve their energy savings target. Bids must identify specific measures to be implemented.

Participation by eligible nonresidential customers and third-party aggregators working with eligible customers is limited to open requests for proposals (RFPs). Call Gary at **585.794.9182** for more information.

### Commercial and Industrial Rebates

Eligible participants include electricity and natural gas commercial, industrial, municipal and institutional customers.

- Prescriptive electric measures include lighting and controls and certain high efficiency HVAC equipment.
- Prescriptive natural gas measures include furnaces, controls, thermostats, and condensing, hydronic and steam boilers.
- Custom electric and natural gas measures are site-specific, cost-effective energy savings measures for retrofit opportunities.

Call **1.888.316.8023** for more information.

More information can be found at [nyseg.com](http://nyseg.com) and [rge.com](http://rge.com), scanning the appropriate QR code below, or by calling the companies' energy efficiency hotline at **1.800.995.9525**.

NYSEG

RG&E

NYSEG and RG&E are operating these energy efficiency programs in accordance with a June 2008 New York State Public Service Commission (PSC) order and subsequent orders, and are funded by the Systems Benefit Charge (SBC) on customers' bills. These programs provide cost-savings to residential and nonresidential customers while at the same time supporting the companies' focus on the environment and energy efficiency.
